

Alternator Replacements for Primary Alternators APPLICATION GUIDE BY AIRCRAFT

Plane-Power

Plane-Power alternators are FAA PMA certified to replace the alternators listed for the following aircraft:

Valid 01/05/2010

Note:

- Installation requires only a logbook entry, No F.A.A. Form 337 required, on applicable installations.
- All PMA Approved Alternators state voltage in the name - e.g. - AL12 is 12 volt AL24 is 24 volt.
- Be certain you get the proper voltage Alternator for your airplane as some airplanes could be covered by 12 and 24 volt alternators.
- If the airplane originally had a generator check our Generator to Alternator Conversion Kits at www.plane-power.com/stc.pdf

APPLICATION GUIDE BY ENGINE MANUFACTURER

In addition to the applications above, Plane-Power alternators are FAA PMA certified to replace Lycoming alternators on the following Lycoming engines:

Lycoming	Description	PP Part #
Engine series 235, 320, 360, 540, 720	Replacement for 12v 70 amp (or less) Lycoming alternators	AL12-P70
Engine series 235, 320, 360, 540, 720	Replacement for 24v 70 amp (or less) Lycoming alternators	AL24-P70
Engine series 235, 320, 360, 540, 720	Replacement for 12v 70 amp (or less) Lycoming alternators	AL12-70*
Engine series 235, 320, 360, 540, 720	Replacement for 24v 70 amp (or less) Lycoming alternators	AL24-70*

Lycoming alternators have a prefix of 'LW' followed by the part number.
* Provided with boss mount bracket, starter strap, tension arm and hardware.
